November 17, 2015

Island Timberlands

It has come to our attention through your community consultation process that your Company intends to log areas adjacent to our school properties, Henderson Elementary School and Brooks Secondary School.

We would like to bring two issues of concern to your attention.

Our first concern is the safety of school students. We would appreciate you sending us information on the processes and protocols you have in place to ensure student safety when you are actively logging around our properties.

Our second concern is the environmental effect on our property from the logging that will take place. Specifically we are concerned about erosion, water accumulation and run off on property due to logging. We would appreciate information and understanding on how all environmental concerns will be mitigated in your logging plan.

We would like to work with you to ensure whatever the plans are for logging, that they address our concerns for children's safety and the impact on our property.

We look forward to further correspondence on these matters.

Yours truly,

A handwritten signature in blue ink, appearing to read "Jay Yule", is written over the "Yours truly," text.

Dr. Jay Yule  
Superintendent of Schools
