**To provide an equitable and sustainable way of introducing the new Roger digital platform, the Program will make the Roger X and Roger Focus receivers, and the Roger Inspiro transmitter, available for new fittings. We will also use them to replace allocated equipment when it reaches end of life, if a replacement of the current model is unavailable. New fittings typically occur in kindergarten and early primary; however, the Program is not limiting allocation of these digital items by grade. A new fitting will be defined as a request for any student who has not been provided with receivers from the Program within the last 12 months, regardless of grade.*
